

SFCS Data ONE: Backup and Recovery Solution for Laptop and Desktop Computers

SFCS Data ONE is an advanced, yet simple and affordable online backup and recovery software offering for individual computers. This solution will revolutionize the fast growing personal computer online backup and recovery marketplace. However, unlike consumer-grade offerings, SFCS Data ONE is designed to be fully integrated into corporate IT data protection infrastructure and strategy.

SFCS Data ONE: Your “Ounce of Prevention”

SFCS Data ONE backup and recovery software offering delivers reliable, cost effective, high performance and secure online backup and recovery services for desktop and laptop computers for remote users, entrepreneurs, small businesses and large enterprises. SFCS Data ONE solutions are supported on highly reliable hardware, proven algorithms and innovative patented software to create a game-changing solution set that can scale to meet today’s most demanding and unique individual computer data protection requirements.

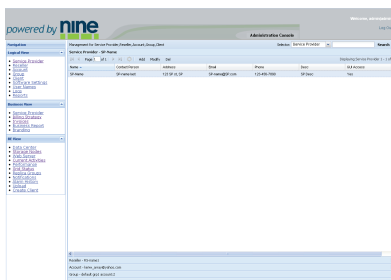

Backup and Recovery Solutions for Small to Large Enterprises

SFCS Data ONE fulfills the online backup and recovery promises that other services or technologies have not been able to achieve. The Powered By Nine™ technology features include:

- Unlimited backup for one low price
- Scalable, reliable, fast and secure access at all times
- Industry-leading data efficiency techniques and compression to minimize data size, number of files and bandwidth impact
- Intuitive user portal encourages routine backups
- Completely self-contained: turn it on and go back to work
- Lightning-fast restores

Global Management Portal Features

South Florida Computer Specialists’s management portal is intuitive and easy to control while remaining a comprehensive gateway for backing up data. Account management and reporting are quick and simple operations with the South Florida Computer Specialists management portal. System managers can remotely lock-down any laptop or desktop using their South Florida Computer Specialists portal license.

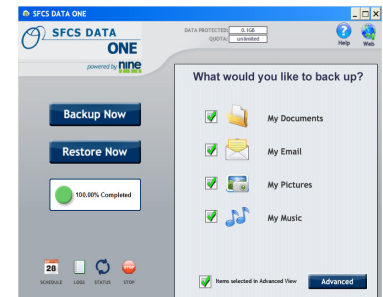

South Florida Computer Specialists' admin portal is intuitive and allows for superior online backup management
